Dear Corporate Partner:

SUNA's Sustaining Corporate Membership Program Three (3) Levels of Support Are Available

Thank you for your support of the Society of Urologic Nurses and Associates (SUNA) during 2018. As you know, SUNA is dedicated to providing the highest quality, evidence-based educational programs and networking opportunities for urologic nurses and allied health professionals. SUNA also strives for unity and collaboration with other professional associations and industry. We are very pleased with our association's accomplishments and even more excited about our future, serving as the center for excellence in urologic nursing education.

We appreciate the many significant contributions that our corporate partners have made to our programs. Now we look forward to future joint endeavors as SUNA continues to grow and expand its membership services within the field of urology.

SUNA believes that the demand for quality and safe urologic patient care will continue to grow in the future, especially as the patient population ages and as the health care system continues to evolve. This increased demand for quality and safe care will create a parallel demand for efficient and educated urologic nurses and staff. Urologic nurses are more important now in helping patients achieve positive outcomes than ever before. SUNA is prepared to meet the challenge of educating its members while providing the necessary resources and specialized knowledge to help members increase the quality and safety of urologic patient care.

*As a professional community of urologic nurses and associates,
SUNA is committed to enriching the professional lives of our members
and improving the health of our patients and their families, through
education, research, and evidence-based clinical practice.*
