	<i>Times are subject to change.</i>	

The workshop is the perfect opportunity to train new urology nurses (medical assistants, LPNs, RNs, APNs) responsible for bladder testing in out-patient urology and urogynecology clinics.

The workshop will cover both lower urinary tract function and dysfunction, a typical multichannel urodynamic study, interpretation of both filling CMG and of voiding pressure flow study. Attendees will also have the opportunity to interact and utilize urodynamic equipment during case study breakout sessions.
