Objectives
This educational activity is designed for nurses and other health care professionals who care for and educate patients regarding urinary dysfunction and urodynamics in the elderly. The evaluation that follows is designed to test your achievement of the following educational objectives. After studying this offering, you will be able to:
1. Describe the approach and initial assessment of elderly patients undergoing urodynamic evaluation.
2. Discuss changes and common urologic disorders in the aged.
3. List challenges to performing urodynamics in the elderly patient.

Posttest Instructions
1. To receive continuing education credit for individual study after reading the article, complete the answer/evaluation form to the left.

2. Detach and send the answer/evaluation form along with a check or money order payable to SUNA to Urologic Nursing, CE Series, East Holly Avenue Box 56, Pitman, NJ 08071-0056.

4. Test returns must be postmarked by April 30, 2005. Upon completion of the answer/evaluation form, a certificate for 1.0 contact hour(s) will be awarded and sent to you.

This activity has been provided by the Society of Urologic Nurses and Associates, which is accredited as an approver of continuing education (CE) in nursing by the American Nurses’ Credentialing Center’s Commission on Accreditation (ANCC-COA). The SUNA is reciprocal in the states and specialty organizations that recognize the ANCC-COA accreditation process. SUNA is an approved provider of continuing education in the following states, California BRN #05556, and Iowa, BRN #669. The content of this program complies with chapter five of the Iowa Administrative Code as described in 5.3 (2)a. The ANCC-COA requires that all CE and participant records be kept on file at the National Office for a period of five years. Licenses in the states of CA and IA must retain this certificate for four years after the CE activity is completed. Other mandatory CE states may have different record requirements. Please be aware of your state’s procedure.
