

The Premier Conference for Urology Professionals

Registration Brochure

October 25-28, 2018

Sheraton San Diego
Hotel and Marina
San Diego, CA

HIGHLIGHTS

- Advanced Practice & Pelvic Floor Tracks
- Basic Urodynamics Workshop
- Evidence-based "Hot Topics"
- Pharmacology Hours
- and so much more

Join us in **San Diego!**

Celebrate Education, Connection and Commitment with your urology colleagues from across the nation at the **2018 uroLogic Conference.**

Education

Connection

Commitment

Program Learning Outcome

By attending the uroLogic Conference, participants will enhance their practice through implementation of newly acquired evidence-based information.

Register Early for a Chance to Win!

Register for the conference and make your hotel reservation at the Sheraton San Diego Hotel and Marina on or before August 27, 2018 and you will be entered into the drawing for a chance to win one complimentary hotel night with breakfast. The winner will be chosen and notified by September 10, 2018. Don't miss your opportunity to win this fantastic prize, compliments of the Sheraton San Diego Hotel and Marina, San Diego, CA!

Preconference Workshops

This was my first SUNA conference. The balance of the content and overall information was excellent. I enjoyed every session and wish I could have attended them all! I will certainly recommend this conference to my colleagues and hope to attend next year!

~conference attendee

Thursday, October 25

6:30 am – 5:30 pm
Registration Open

7:00 am – 8:00 am
Coffee Service

7:30 am – 11:45 am

Preconference Workshop 010: Women's Sexual Health

4 contact hours

Rx

*Catherine Gagnon, NP-BC
Irwin Goldstein, MD
Eric Biewenga, MD*

Learn the general principles of management of women with desire, arousal, orgasm and/or pain issues. This workshop will explore normal physiology, pathophysiology, and treatment options, including FDA approved, off label, device and surgical therapies. This will include a risk benefit discussion of hormone therapy for pre- and post-menopausal women, risk factors for female sexual dysfunction and co-morbid conditions such as genitourinary syndrome of menopause, interstitial cystitis and clitoral phimosis.

7:30 am – 5:15 pm

Preconference Workshop 020: Cystoscopy Workshop

6.25 contact hours

*Heather Schultz, MSN, RN, FNP-C
Sara Drummer, FNP-BC, CUNP
Davis Viprakasit, MD
Eileen Young, MSN, RN, CNOR*

This course is designed for advanced practice nurses and physician assistants who will begin to perform cystoscopy. Using lecture and hands-on teaching strategies, participants will gain knowledge in identifying normal and abnormal findings in the bladder and indications for cystoscopy. Patient and equipment preparation to ensure safety during the procedure also will be described. Hands-on experience will expose participants to the care and handling of flexible and rigid cystoscopes and techniques for performing bladder biopsy and stent removal. (This workshop is limited to 60 participants.)

7:30 am – 5:15 pm

Preconference Workshop 030: Basic Urodynamics in a Nutshell

8 contact hours

*Cheryl LeCroy, MSN, RN
Shelly King, MSN, CPNP*

Urodynamic testing provides extremely valuable and useful information for the care of urologic patients with voiding dysfunction. However, they can be daunting to perform and interpret. This informative and dynamic session will take the participants through the entire process be-

ginning with the rationale for “why we do what we do”, how voiding dysfunction impacts the bladder, test set-up, trouble shooting and interpretation. Games and case studies will be utilized to “pull it all together.” Included in the workshop registration fee are copies of the CD, *Traces: Making Sense of Urodynamics Testing* by Mikel Gray, as well as a *Practical Guide to Performing Urodynamics* manual.

7:30 am – 5:15 pm

Preconference Workshop 040: Certification Review Course for the RN

8 contact hours

*Jeffrey Albaugh, PhD, APRN, CUCNS
Laura Flagg, DNP, ANP-BC, CNP, CUNP
Leanne Schimke, MSN, CRNP, FNP-C, CUNP
Saundra Sturdy, APRN CUCNS, CNOR
Glenn Sulley, BSN, RN, CURN*

Becoming a CURN® (Certified Urologic Registered Nurse) is one of the best career moves you'll ever make! Prepare for the certification exam by taking this course. The course is based on the Certification Board for Urologic Nurses and Associates (CBUNA) test content outline for the exam. It is designed to help you prepare to take the certification exam. The course is also helpful for nurses transitioning to urology and experienced nurses who would like to refresh their knowledge.

11:45 am – 1:00 pm

100: Corporate Luncheon Symposium or Lunch on your own

1:00 pm – 5:15 pm

Preconference Workshop 050: Vulvar Disorders Workshop

4 contact hours

*Irwin Goldstein, MD
Susan Kellogg Spadt, PhD, CRNP, IF
Julea Minton, MSN, RN, NP-C*

Learn how to perform a detailed, magnified examination of the vulva, vagina and vestibule region; understand genital structures and function and learn management strategies based on findings. Topics will include: dermatologic disorders, cancers, vaginal infections, vulvar biopsy, clitoral adhesions, and vestibular pain.

5:30 pm – 6:45 pm

Business Meeting/Town Hall Session

Immediately following the brief Business Meeting, you are invited to meet with the SUNA Board of Directors who will be available to answer questions, listen to suggestions and concerns, and discuss issues of importance to members. You are welcome to submit questions and/or comments in advance by emailing them to suna@ajj.com by Friday, September 28.

Friday, October 26

6:30 am – 5:30 pm
Registration Open

6:30 am – 7:45 am
101: Continental Breakfast (pending a sponsor)

8:00 am – 12:00 pm
Certification Exam

7:45 am – 8:15 am
Conference Welcome and Awards

Michelle Lajiness

Gwendolyn Hooper

Michelle Lajiness, FNP-BC, Chairperson
Gwendolyn Hooper, PhD, APRN, CUNP,
SUNA President

8:15 am – 9:15 am
110: Keynote Address
The Urobiome: What You Should Know
1 contact hour **Rx**

Linda Brubaker, MD

The state of diagnosis and treatment for female urinary tract infection (UTI), one of the most common bacterial infections of humans will be reviewed in this presentation. The annual social cost of UTIs has been estimated at 1.6 billion dollars with 11.3 million antibiotic prescriptions annually. Despite elegant research into UTI pathophysiology, clinical care and prevention, strategies have not advanced in any meaningful way. This presentation will include new information about the urobiome and highlight opportunities to improve clinical care.

9:15 am – 9:30 am
120: New Members and First-Time Attendees Welcome and Orientation
This orientation will help new and first-time attendees know who's who and what's what.

9:15 am – 10:45 am
Grand Opening of Exhibits/Coffee Break/ Posters on Display/Silent Auction & Raffle
The latest and greatest in urology products and services are on display from the leading vendors in the market place. Exhibitors will be eager to speak with you about your patient's needs and your professional responsibilities.

View Silent Auction items and bid on the many exciting options donated by individuals, chapters, corporate members and exhibitors.

Posters will also be on display during this time.

10:50 am – 11:50 am CONCURRENT SESSIONS

121: Pre-Operative Assessment of Urological Surgical Cases

1 contact hour

Tasha Carpenter, MS, PA-C

Learn the essentials for risk stratification of pre-operative urology cases. Topics will include coordination of care, anesthesia assessment, peri-operative medication management, VTE risk assessment and peri-operative patient education.

122: Upper Tract Urethral Malignancy Update

1 contact hour

Thomas Cangiano, MD

In this session, we will define and describe diagnosis and treatment options for localized upper tract urethral lesions. This includes staging and follow-up with the latest guidelines.

PF

123: Lubricants, Moisturizers & Devices; Helping Your Patients Achieve Optimum Sexual Health

1 contact hour

Susan Kellogg Spadt, PhD, CRNP, IF

This presentation will describe the action of lubricants and moisturizers, compare and contrast types, and identify specific indications for their use. It will familiarize the clinician with female enhancement devices and sexual furniture.

APN

124: Prostate Cancer: New Era of Decision Making

1 contact hour

Daniel Park, PA

The latest updates on prostate cancer diagnostics, imaging and biomarkers will be presented in this session.

12:00 pm – 1:15 pm
130: Corporate Luncheon Symposium
Sponsored by Astellas Pharma US, Inc.

Optional City Tour Events

Continue the excitement of the magnificent city of San Diego with your urology colleagues. Go to www.suna.org/event/2018-urologic-conference for details and pre-registration information on local tour events.

1:20 pm – 2:20 pm
CONCURRENT SESSIONS

141: Oh No! My Patient has an Ostomy, Now What?

1 contact hour

Frances Wilson, RN, CNS, MSN, CWOCN-AP®, CFCN(r)

Patients with fecal and urinary ostomies (sometimes both) have unique needs and face many challenges in our health care system. They frequently seek care and services from urologic and other health care professionals that are not familiar with these conditions. This can result in unnecessary referrals. Having a baseline understanding about the different types of ostomies, basic care concepts, and resources will enhance and improve the services, support and overall care that urologic professionals provide to this special, growing population.

142: The Ins and Outs of Medications Affecting Bladder Function

1 contact hour

Rx

Tracy Anderson-Haag, PharmD, BCPS

Many common medications can contribute to bladder dysfunction. In this session we will review several medications that may be causative agents in bladder dysfunction or be associated with drug interactions with common agents used to treat urinary disorders. Participants will leave with increased confidence in optimizing pharmacotherapy to avoid bladder-associated complications.

PF

143: Tailoring Treatment for the Interstitial Cystitis/Painful Bladder Syndrome Patient

1 contact hour

Christina Hegan, MS, APRN, WHNP-BC

Etiology, prevalence, pathophysiology, assessment, differential diagnosis, and treatment of IC/PBS will be presented. AUA guidelines and INPUT system for treatment based on subtypes/phenotypes will be compared. Sacroiliac joint dysfunction, myofascial pain, and high tone pelvic floor dysfunction will be discussed. Psychosocial effects, overlapping comorbidities, and overlapping OAB will be addressed.

Concurrent Tracks

APN Advanced Practice Nurse

PF Pelvic Floor

APN

144: Challenges in the Evaluation and Management of Male Incontinence

1 contact hour

Michael J. Kennelly, MD, FACS

This course will provide a clinical framework for the evaluation, treatment and follow-up of male patients with urinary incontinence. The etiology, risk factors, and pathophysiology of male incontinence, as well as the role of urodynamics and best urodynamic practices will be reviewed. Emphasis will be placed on surgical and non-surgical post-prostatectomy incontinence management highlighting the current available treatment options, patient selection, outcomes, and troubleshooting the failed sling and artificial urinary sphincter.

2:25 pm – 3:55 pm

Exhibits Open/Refreshment Break/Posters on Display/Silent Auction (bids close)

4:00 pm – 5:00 pm
CONCURRENT SESSIONS

151: Child Sexual Abuse Screening: A Unique Opportunity for Pediatric Urology Providers

1 contact hour

Melissa Young, MSN, RN, CPNP

Routine screening for sexual abuse may increase the rate of childhood disclosure. Implementing an evidence-based, validated, and developmentally appropriate screening guideline with visits to pediatric urology providers would allow child sexual abuse victims to be removed from abusive situations, receive appropriate physical and mental health services, and potentially decrease their risk for long-term physical and psychological consequences.

152: Fountain of Youth or Cascade of Complications: Polypharmacy in the Elderly

1 contact hour

Rx

Tracy Anderson-Haag, PharmD, BCPS

Aging patient population in your practice? Medication lists getting longer? This session will review pharmacokinetic and pharmacodynamic changes of common medications used in geriatric patients and their impact on the safety and efficacy of these medications. Knowledge gained in this session will help the participant avoid medication misadventures in a high-risk elderly population.

PF

153: Pelvic Floor Biofeedback and Neuromuscular Electrical Stimulation

1 contact hour

Julie Starr, APRN, FNP, PhD

Pelvic floor biofeedback and neuromuscular electrical stimulation (NMES) have been shown to be effective in the treatment of urinary symptoms in both men and women. This treatment option is often preferred over medication and surgical intervention. Biofeedback and NMES indications and administration will be reviewed during this session along with a review of the literature and current coding and billing guidelines. Case studies will be presented.

APN

154: Integration of APP's Tips and Tricks Panel

1 contact hour

Mike Kennelly, MD, FACS

Heather Schultz, NP-C

Daniel Park, PA

This panel discussion is designed for advanced practice nurses and physician assistants in regard to APP integration. The panel will be made up of one NP, one PA, and one MD. The panel will discuss where education is going in the next 5 years, urology fellowships that are available, education resources, and personal examples of APP onboarding. There will be time for audience question and answer at the end of the session.

8:25 am – 9:25 am

General Session

210: “Do You have a Smartphone?”

The Use of Technology for Management of Urology Patients

1 contact hour

Gina Powley, MSN, ANP-BC

With the advancing use of technology (smartphones/smartpads), urology team members, patients and families have different options on how to monitor patient progress and management of common urology ailments. This presentation will give an overview on the use of different urology apps for different members on the urology team. Pros, cons and uses of the apps, as well as the financial burden they might cause will be addressed.

9:30 am – 11:00 am

Exhibits Open/Coffee Break/Posters on Display

11:05 am – 12:05 pm

CONCURRENT SESSIONS

221: Pediatric Enuresis Education Sessions: Addressing the Nocturnal Enuresis Nightmare

1 contact hour

Melissa Young, MSN, RN, CPNP

Nocturnal enuresis affects approximately 6 million children in the United States each year. Due to the high number of children affected and the high number of nocturnal enuresis referrals to our pediatric urology clinic, families experienced an increased wait time for provider appointments, resulting in dissatisfaction and delay in treatment. In an attempt to address this issue and begin treatment as soon as possible, we implemented Pediatric Enuresis Education Sessions.

222: The Art of Patient Teaching (Or is It?)

1 contact hour

Cheryl LeCroy, MSN, RN

Often, patient education is overlooked or done quickly for many reasons. Patient education is a fundamental aspect of patient care and yet poor education is one of the most common sources of patient complaints both in and out of the hospital. Ensuring patient understanding of their health condition is extremely important and can improve outcomes, adherence to the plan of care and patient safety. Patient education concepts and creative ways to interject patient teaching in encounters with urologic patients will be discussed.

5:05 pm – 6:05 pm

SIG Meetings

161: Advanced Practice

162: Geriatrics: Extended Care/
Outpatient/Continence

163: Urodynamics

164: Sacral Nerve Stimulation

165: Extracorporeal Shock Wave
Lithotripsy/OR/Cystoscopy

Saturday, October 27

6:45 am – 6:00 pm

Registration Open

6:45 am – 8:00 am

201: Corporate Breakfast Symposium

Pending corporate support

8:05 am – 8:20 am

Remarks and Awards

PF

223: Sacral Nerve Stimulation (SNS) Programming and Troubleshooting

1 contact hour

Lori Guelman, MSN, RN-FNP-BC

The SNS is an implantable neurostimulator device indicated for OAB, UUI, urinary retention and fecal incontinence. This talk will review SNS and discuss indications for reprogramming as well as different ways to troubleshoot in the office.

APN

224: Gender-Affirming Reconstructive Surgery

1 contact hour

Jonathan Witten, MD

An overview of gender-affirming reconstructive surgery and perioperative considerations will be reviewed.

12:15 pm – 1:30 pm

230: Corporate Luncheon Symposium

Sponsored by Astellas Pharma US, Inc/ Pfizer Oncology

1:35 pm – 2:35 pm
CONCURRENT SESSIONS

241: Nursing Interventions for Male Urethral Stricture Patients

1 contact hour

Mary West, MSNE, RN, CURN

This presentation aims to provide the urology nurse with a broad review of nursing interventions relating to care of male urethral stricture patients. Initial assessment through postoperative, follow-up care, will be presented, including radiographic/case studies for various stricture locations, surgery techniques, and concomitant nursing interventions.

242: AUA Guideline Update on Management of Small Renal Masses

1 contact hour

Vitaly Margulis, MD

During this session, we will discuss the newest recommendations of management and follow-up of small renal masses, highlighting changes in the most recent AUA Guidelines. Additional focus on practical concerns and decisions made in real-life clinical practice.

PF

243: Asymptomatic Microscopic Hematuria in Women

1 contact hour

Shawn Menefee, MD

Asymptomatic microscopic hematuria (AMH) is a common finding and has been considered an important clinical sign of urinary tract malignancy. The definition and guidelines of AMH have changed over the years. Much of the evidence is based on data from male patients and the risk of urinary tract malignancy may be less in women than in men. Women specific conditions may lead to increased incidence of AMH. Likewise, primary care providers appear not to refer many women with AMH. We will review guidelines and consider how recent evidence is changing practice.

APN

244: Role of Imaging in Stone Disease

1 contact hour

Margaret Pearle, MD

Imaging is the cornerstone of the diagnosis of kidney stones and it plays an important role in surgical planning, surgical management and follow-up of patients with kidney stones. The different imaging modalities available for diagnosing stones, their risks and benefits and their indications for use in the diagnosis and treatment of patients with kidney stones will be presented.

2:40 pm – 3:40 pm
CONCURRENT SESSIONS

251: Cancer Genetics, It's Not Just BRCA1/2 Anymore

1 contact hour

Brian Reys, MS, CGC

Delve into the world of hereditary cancer predisposition syndromes in this session designed to update clinicians on the ins and outs of cancer genetics. Together we will learn how to identify patients at high risk, discuss clinical advances in genetic testing, and evaluate the utility of direct-to-consumer genetic testing. We will critically analyze the availability and service delivery of genetic testing and share tools to help shape the landscape of your practice.

Score with 4!

Get 4 colleagues to join SUNA and receive a 1 year membership for Free.

252: Kidney Stones: The Essentials of Medical and Surgical Management

1 contact hour

Margaret Pearle, MD

Kidney stones are one of the most common benign urologic conditions, affecting nearly 1 in 11 individuals at some time in their lives. The epidemiology of kidney stones, management of the patient presenting with an acute stone, and surgical treatment options for patients with kidney stones will be presented in this session.

PF

253: Genitourinary Syndrome of Menopause: Medical Management and Procedural Therapies

1 contact hour

Rx

Elizabeth Evans, MD

In 2014, the new term genitourinary syndrome of menopause (GSM) was introduced to encompass the symptoms associated with the loss of estrogen that occurs with menopause. These symptoms of atrophy affect the vulva, vagina, bladder and urethra. Patients can experience symptoms such as pain, sexual dysfunction, vaginal bleeding and recurrent urinary tract infections. In addition to vaginal estrogen, we will review the non-estrogen medications and in-office procedures available to treat GSM.

APN

254: AUA Update: Benign Prostatic Hyperplasia and Post-operative Management

1 contact hour

Michelle Lajiness, FNP-BC

The management of BPH will be reviewed using the AUA Guidelines. Included in this discussion will be prevalence, signs and symptoms, appropriate H&P and diagnostic testing. Various treatments including watchful waiting, medical therapy, minimally invasive therapies and surgical procedures will be discussed. A special emphasis will be placed on post-operative care reviewing potential complications and interventions.

3:45 pm – 4:45 pm
CONCURRENT SESSIONS

261: Assessing Clinical Competency of the Urology Nurse

1 contact hour

Glenn Sulley, BS, RN, CURN

Evaluating urology-specific clinical competency of a professional urology nurse is a continuing process. The use of uniquely developed competency assessment tools will be discussed. These proficiencies have proven to be very valuable in our urology practice and have become an essential part of our nurse's annual performance appraisals. Experience with this competency protocol, our rating system, validation, and evaluation practice for each of our specific competencies will be shared.

262: Nocturia: Advanced Concepts for the Urologic and Urogynecologic Specialist

1 contact hour

Mikel Gray, FNP, PNP, CUNP, CCCN, FAANP, FAAN

Nocturia, defined as interruption of sleep owing to a desire to urinate, is one of the most common and most bothersome lower urinary tract symptoms. This lecture will review the epidemiology, pathophysiology, evaluation and management of nocturia focusing on urologic specialty and advanced practice.

PF

263: Treating Pelvic Floor Dysfunction with Pelvic Floor Physical Therapy

1 contact hour

Stephanie Prendergast, MPT

The participants of this lecture will understand the evidence behind physical therapy diagnosis and treatment for pelvic floor disorders and understand the components of pelvic floor physical therapy evaluation and treatment. Clinicians will learn how to do a basic pelvic floor examination and suggestions will be made about how to work within an interdisciplinary treatment model. Diagnoses covered will include vulvodynia, interstitial cystitis, pudendal neuralgia, CPPS and stress urinary incontinence and pelvic organ prolapse.

Concurrent Tracks

APN Advanced Practice Nurse

PF Pelvic Floor

APN

264: Bladder Cancer: From Basics to New Frontiers

1 contact hour

Leanne Schimke, MSN, FNP-C, CRNP, CUNP

After decades without significant advances in bladder cancer treatment, numerous new agents that help to reactivate the patient's own antitumor response have been approved. This presentation will cover bladder cancer from NMIBC, MIBC to metastatic bladder cancer incorporating intravesical treatments, new therapies, relevant guidelines and evidence-based therapies. It is important to understand the pathophysiology of bladder cancer, long-term sequelae, and the rationale for the various therapies.

4:50 pm – 5:50 pm
CONCURRENT SESSIONS

271: Congenital Anomalies of the Female Genitourinary Tract – Update on Treatment of Disorders of Sex Development (DSD) and Their Impact on Sexuality and Fertility

1 contact hour

Valre Welch, MSN, CPNP

Issues affecting sexuality can begin as early as embryonic life. DSD can greatly impact both sexuality and fertility. A review of medical management and possible surgical interventions in patients with Mayer - Rokitansky-Kuster - Hauser Syndrome (MRKHS), complete androgen insensitivity syndrome (CAIS) and congenital adrenal hyperplasia (CAH) will be presented. There have been significant advancements in the management of these patients. These are complex adolescent girls and young adults requiring provider support and understanding.

272: Urology Briefs

1 contact hour

This session is a series of short presentations on focused urology topics. The presentations will be informative and eye-opening.

PF

273: Advanced Interpretation of Urodynamics for the Experienced Specialist and Advanced Practice Provider

1 contact hour

Mikel Gray, PhD, PNP, CUNP, CCCN, FAANP, FAAN

This case-based, interactive session will focus on advanced concepts in urodynamic testing and interpretation of their clinical implications. Designed for the experienced specialist or advanced practice provider, the cases presented in this session will challenge even the most experienced clinician seeking to advance their skills in interpretation of urodynamic findings. Cases will include multi-channel and video urodynamic testing, pressure flow and contractility nomograms, and urethral pressure profilometry.

APN

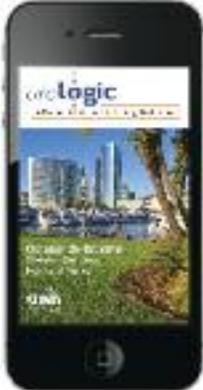

274: Contemporary Policy and Practice Issues for the Nurse Practitioner in Urology Specialty Practice

1 contact hour

Susanne Quallich, PhD, ANP-BC, NP-C, CUNP, FAANP

Policy and practice issues for the NP working in urology practice will be presented. This session will include discussion of the AUA/SUNA perspective on the NP role in urology, the influence of the APRN consensus model, and introduce methods to advance the NP role in urology as a way to meet the aging population's need for specialty urology care. Issues relative to education/certification, legal issues, present and future regulatory issues, and present and future reimbursement issues will also be examined.

Registrants receive FREE access to SUNA's uroLogic app

Keep organized, connect with others, and so much more!

Look for details with your registration confirmation email.

Sunday, October 28

6:45 am – 1:15 pm
Registration Open

6:45 am – 7:30 am
Continental Breakfast

7:30 am – 7:45 am
Closing Remarks

7:45 am – 8:45 am
310: General Session
Promoting Professionalism in Urology Nursing
1 contact hour

Susanne Quallich, PhD, ANP-BC, NP-C, CUNP, FAANP

As members of SUNA, each and every one of us can take steps to help promote the science of urologic nursing, an activity that is vital if urology is to continue as a recognized nursing specialty. This session will provide an overview of ways urology nurses and associates at all levels can help promote the vision of SUNA to be “the nursing authority on collaborative, compassionate and culturally competent urologic care.” The importance of authorship, manuscript reviewer, certification, policy and scope of practice issues at all levels will be discussed, as we work toward stewardship of urology nursing.

8:50 am – 10:05 am
320: General Session
Reconstructing the Experience for the Non-Cisgender and the Gender Non-Binary Patients
1.25 contact hours

Jennifer Wimberly, MD

In this lecture, the history of the experience of the non-cisgender and the gender non-binary patients in the medical field will be presented. Our duty and privilege as urology providers to lead the charge in reconstructing the experience for these patients and to demonstrate ability, comfort, compassion, knowledge and community in our delivery of care will be discussed.

5 Free CNE

SUNA Main Conference Registrants will receive an additional five FREE contact hours! Registrants will have approximately four weeks to complete the online evaluations in the SUNA Online Library and receive the contact hours for the conference sessions they attend on site. After the evaluation deadline, main conference registrants will receive instructions on how to earn their five additional FREE contact hours!

10:10 am – 11:25 am
330: Research Session

1.25 contact hours

This practical and exciting session will highlight urologic research and provide attendees with a glimpse of the differences that are being made through research.

11:30 am – 12:45 pm

340: General Session
Managing Urology-Related Pain within the Opioid Crisis

1.25 contact hours

Rx

Susanne Quallich, PhD, ANP-BC, NP-C, CUNP, FAANP

The balance between the potential benefits and harms of opioid use must be considered when managing all patients, but it is less clear how this dilemma impacts our ability to manage urologic postoperative pain, or chronic pain conditions that may be managed by urology providers. This session will provide an overview of the opioid crisis and offer insight into its potential to impact the management of urology patients.

Postconference Workshop

12:55 pm – 5:10 pm
901: Post Conference Workshop: Pelvic Muscle Rehabilitation

4 contact hours

Diane Newman, DNP, ANP-BC, BCB-PMD

Behavioral treatments are first line interventions for urinary and fecal incontinence and overactive bladder and are recommended for related disorders such as voiding dysfunction, bladder pain syndrome/interstitial cystitis, and urinary retention. These interventions are aimed at improving symptoms through education, lifestyle modifications and PFM rehabilitation. This course will provide a comprehensive review of pelvic floor disorders and rehabilitation treatments to include biofeedback-assisted PFMT and electrical stimulation. Course participants will practice on the use of instruments. Lunch will be provided to paid registrants prior to the start of the session.

*(Workshop is limited to 30 participants)
Only full conference attendees can register for this workshop*

Supported by an unrestricted educational grant from The Prometheus Group

Advanced Practice Track

Pelvic Floor Track

This year at the uroLogic Conference we will offer even more exciting advanced practice provider educational opportunities. The track will feature workshops, education sessions and networking designed specifically for advanced practice clinical knowledge and skills. The program includes:

- An all-day Cystoscopy Workshop
- Dedicated advanced practice track sessions include: prostate cancer, men's incontinence, integration of APP's tips and tricks panel, gender-affirming reconstructive surgery, radiographic interpretation of stones and management, AUA update on benign prostatic hyperplasia and postoperative management, bladder cancer, and policy and practice issues for the nurse practitioner.
- Alternative sessions on advanced urologic topics and networking opportunities with other advanced practice providers throughout the conference.

A pelvic floor track will also be offered at the uroLogic Conference. This track is designed to offer a full array of interesting advanced topics and content that will grab your attention as well as educate you on pelvic floor dysfunction and the challenges in the care of those patients. The track includes:

- A half-day Women's Sexual Health Workshop
- A half-day Vulvar Disorders Workshop
- Dedicated pelvic floor track sessions include: interstitial cystitis/painful bladder syndrome, electrical stimulation for pelvic floor disorders, sacral nerve stimulation programming and troubleshooting, asymptomatic microscopic hematuria in women, genitourinary syndrome menopause, treating pelvic floor dysfunction with pelvic floor physical therapy, and advanced interpretation of urodynamics.

Debbie Hensley, BSN, RN, CURN
Shanna Atnip, MSN, WHNP-BC
Barbara Broome, PhD, RN, FAAN

Director of Education

Rosemarie Marmion, MSN, RN-BC, NE-BC

Continuing Nursing Education Credit

SUNA's uroLogic Conference will offer 14.75 contact hours. In addition, Preconference Workshops will offer the following: Preconference 010 – 4; Preconference 020 – 6.25; Preconference 030 – 8; Preconference 040 – 8, Preconference 050 – 4; Postconference 090 – 4

The Society of Urologic Nurses and Associates (SUNA) is accredited as a provider of continuing nursing education by the American Nurses' Credentialing Center's Commission on Accreditation.

The SUNA accreditation is reciprocal in the states and specialty organizations that recognize the ANCC-COA accreditation process. SUNA is also a provider approved by the California Board of Registered Nursing, Provider Number CEP 5556. Accreditation and approved provider status of CE in nursing does not imply ANCC-COA approval or endorsement of any product, advertising, or educational content. SUNA urges all participants to be aware of the CE requirements for re-licensure in the states in which they hold a license.

Pharmacology Credit

At least 3 hours of pharmacology credit will be awarded. Total number of approved credits is yet to be determined. Additional pharmacology credit for the preconference workshops has not yet been approved. **NOTE: Rx** indicates requested pharmacology credit

Hotel Information

Sheraton San Diego Hotel & Marina
1380 Harbor Island Drive
San Diego, CA 92101

The **Sheraton San Diego Hotel & Marina** has been designated as the headquarters hotel for the SUNA uroLogic Conference. A block of rooms has been reserved at the special rate of \$199 Single/Double, \$219 Triple/Quad plus taxes.

Rates are subject to applicable state and local taxes. The special rate is available until **September 25, 2018**. Reservations received after this date will be accepted on a space and rate available basis.

To make your reservations, call **(877) 734-2726** and refer to the SUNA uroLogic Conference or make your reservations online at www.suna.org/urologic-2018.

Guest check in time is 3:00 pm. Check out is at 12:00 noon.

Hotel Parking

Parking is available with rates of \$35 for self-parking and \$40 for overnight valet parking.

Airport Shuttle

The Sheraton San Diego Hotel & Marina provides complimentary San Diego airport shuttle service to/from the San Diego International Airport. The courtesy airport shuttle arrives every 20-25 minutes from 4:45 am – 1:00 am, seven days a week. If you are arriving in San Diego, check the link below for Terminal 1 & 2 shuttle pickup instructions.

<http://www.sheratonsandiegohotel.com/san-diego-airport-shuttle>

Weather

The weather in San Diego will be nice in October with an average temperature around 70-75 degrees during the day and 59-62 degrees in the evening. Be sure to pack a sweater, light jacket or wear layers in the air conditioned classrooms. We also suggest that you bring comfortable walking shoes for your conference activities.

Call for Session Moderators

Your help is needed to assist with speaker support during the educational sessions. If you've been looking for an opportunity as a SUNA member to get involved in the organization, this is a great occasion for meeting other members and welcoming colleagues to the conference. As a session moderator, you will introduce the speaker from the podium, assist with A/V equipment for the speaker, and keep the session on time. There will be an orientation session for all moderators on Thursday, October 25 from 5:00 pm – 5:30

pm. To volunteer, mark your conference registration form or contact the SUNA National Office at 1-888-TAP-SUNA.

Room Sharing

If you are interested in sharing a room during the conference and would like your name on the Willingness to Share a Room List, E-mail suna@ajj.com or call 1-888-TAP-SUNA. Your name, phone number and email address will be circulated to others on the list. Please indicate where (work or home) you prefer being called. The information must be received by September 20, 2018. It will be your responsibility to contact them directly and make arrangements to share a room.

Guest Badges

Guest badges are available as a courtesy for paid attendees. A "guest" is defined as a spouse, family member, significant other, friend, or adult child (over 16 years old). A co-worker or an associate within the industry does not qualify as a guest. The fee is \$50, which entitles the guest to visit the Exhibit Hall only. Guest fee does not include admission to sessions, meal functions or corporate sponsored symposia.

Photo Release

SUNA occasionally uses photographs of SUNA convention participants in its newsletter, Web site, promotional materials, and in the *Urologic Nursing Journal*. By virtue of your attendance at the annual conference, you agree to usage of your likeness in such material.

**Sponsored Meals

Although we try to obtain sponsorship for the meals listed as "pending" in this brochure, it is not always possible. We regret that if sponsorship is not received, those meals will be on your own.

Corporate Sponsored Sessions

Some states have enacted strict compliance and disclosure requirements for pharmaceutical and medical device manufacturers and healthcare professionals. If your state does **NOT** permit sponsors to provide meals during educational sessions, you may attend the session, but you will not be permitted to partake of the meal.

Online Library & Paperless Conference!

What Are the Benefits?

- Unlimited free online access to all approved sessions after attending the conference.
- “Virtually” attend sessions you missed on-site or revisit courses you found interesting.
- Never have to choose between concurrent sessions again!

Content will be available approximately 3 weeks after the conference, so you can take advantage of this additional learning experience at your convenience.

(Additional CNE contact hours may be obtained for a separate fee.)

Handouts Available Online

Approximately 2 weeks before the conference, you'll receive an email with instructions on how to download handouts in the SUNA Online Library.

Paperless Online Evaluations and CNE Certificates

Simply complete the evaluation and print your CNE certificate at your convenience from home or work! Now you can focus on networking and enjoy the conference!

Silent Auction will be held Friday, October 26, 2018 in the Exhibit Hall

9:15 am – 10:45 am and 2:25 pm – 3:55 pm

Winning bids will be posted in the registration area.

Awarding scholarships for advanced education, specialized training, funding research projects related to urologic disease or treatment continues to be the Foundation's commitment to excellence. Support for the Foundation comes from corporations, SUNA chapters and members. You can support the Foundation by donating items for the auction and coming to the conference prepared to bid.

To donate items, download the donation form at www.suna.org/Foundation, or contact the SUNA National Office at 888-TAP-SUNA or email suna@ajj.com. Your donation is tax deductible.

Certification Matters

Let SUNA provide the Education:

SUNA Core Curriculum for Urologic Nursing

NEW! SUNA Certification Review Course for the RN

Online Library Courses:

- SUNA Urology Review Course for the Experienced RN and Advanced Practice Provider
- Certification Review Course for the Associate

To learn more about SUNA and education

go to www.suna.org

Let CBUNA provide the Certification:

CBUNA Certification: CUNP and CURN are

Magnet recognized

To learn more about CBUNA and certification

go to www.cbuna.org

SUNA can help you meet your urologic recertification requirements with Free monthly CNEs. SUNA Members earn free CNE on us!

Empower your career. Earn your certification.

KNOWLEDGE
CONFIDENCE
REPUTATION

Matters

Why Attend?

- **Competency:** Increase your competency in providing quality care to urologic patients and providing education to patients and their families.
- **Education:** Participate in evidence-based education that “raises the bar”.
- **Earn:** contact hours and pharmacology credits.
- **Connection:** Network with colleagues and industry representatives while exploring current trends in urology practice.

Special rate available when you register by September 25!

I always come away from these conferences feeling a renewed sense of excitement about the work I'm blessed to do. It's great to network with colleagues, increase my urology knowledge base and even learn a little more about the city where the conference is held. THANK YOU to SUNA, the conference committee, and the speakers for all of their hard work.
