

### **Happy Urology Nurses and Associates Week!**

Urology nurses care for patients across the lifespan, providing guidance and treatment for a variety of urologic diseases and concerns. They work in all health care settings and specialize in such areas as continence care, male/female sexual dysfunction, infertility, oncology, surgery, cystoscopy, and urodynamics. To recognize how valuable urologic nurses and associates are to the healthcare system and their patients, SUNA established Urology Nurses and Associates Week, which is celebrated every year from November 1-7.

### **Ways to Celebrate Colleagues, Employees, and Yourself!**

Throughout the week, we invite you to celebrate with your colleagues and express gratitude for their hard work and commitment. Some ideas include:

- Offer raffles, prizes, or giveaways
- Host a breakfast, lunch or dessert party
- Decide on a fun theme for the week
- Send a brief thank you email

To help you easily share the celebration in your workplace or on social media, we've put together a **Urology Nurses and Associates Week Celebration Toolkit** that offers a variety of items to choose from, including posters, social media posts, and more. Thank you for making a difference in the lives of patients, families, and your communities every day.

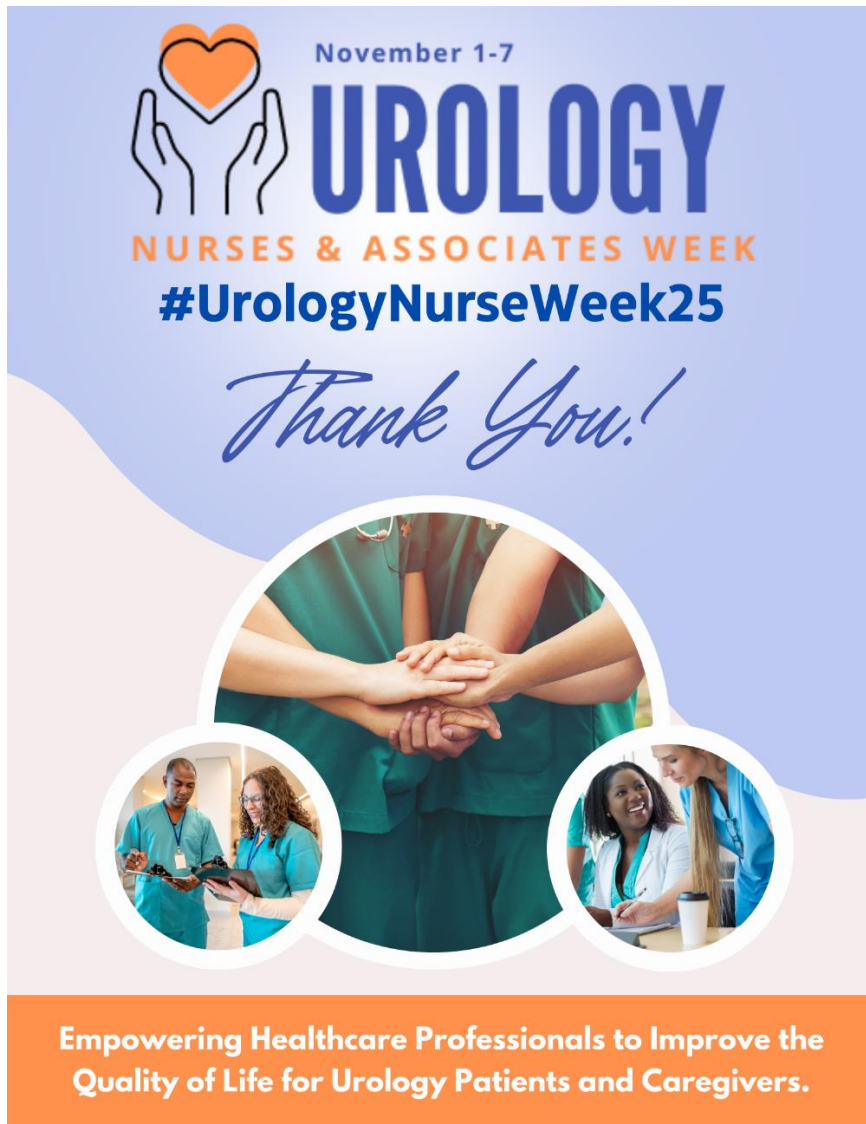

## Official SUNA & CBUNA Merchandise
